

IN THE CLAIMS:

Please cancel pending Claims 1-19 and 21 and add new  
Claims 22 through 25 as follows:

5

*Sub E17 31*  
1. In a converting device for converting a box score  
in a hockey game eventually to final statistics relative to  
composite power play, composite penalty efficiency, two-  
player power play, two-player penalty efficiency, major  
power play, major penalty efficiency, composite hot seat,  
hot seat two-player disadvantage, hot seat major  
disadvantage, or earned goal average, and wherein said final  
statistics are, in turn, obtainable from intermediate  
statistical data, the improvement being wherein said  
intermediate statistical data are identifiable by a  
combination of respective characters within, and are  
routable to a calculating means so as to obtain statistics  
therefrom, comprising in combination:

20

converting means for obtaining said intermediate  
statistical data from said box score, said  
converting device including:  
a database for storing said box score;  
means for converting said box score to accrued time and  
goals scored during power plays of opposing teams;  
and  
storage means for storing said accrued time and goals  
scored in an intermediate statistical database.

*22.05*  
23. The converting device according to claim 22,  
wherein said converting means further comprises a timer. *21. j*

*23.5*  
24. In a converting device for converting a box score  
in a simulated hockey game eventually to final statistics  
relative to composite power play, composite penalty  
efficiency, two-player power play, two-player penalty  
efficiency, major power play, major penalty efficiency,  
10 composite hot seat, hot seat two-player disadvantage, hot  
seat major disadvantage, or earned goal average, and wherein  
said final statistics are, in turn, obtainable from  
intermediate statistical data, the improvement being wherein  
said intermediate statistical data are identifiable by a  
combination of respective characters within, and are  
15 routable to a calculating means so as to obtain statistics  
therefrom, comprising in combination:  
converting means for obtaining said intermediate  
statistical data from said box score, said  
20 converting device including:  
a database for storing said box score;  
means for converting said box score to accrued time and  
goals scored during power plays of opposing teams;  
and  
25 storage means for storing said accrued time and goals  
scored in an intermediate statistical database.
